

echo[®]

hydrogen enriched **2** water

Echo[®] 9 Ultra H₂ Water Machine

The Echo[®] 9 Ultra H₂ Water Machine is the ultimate in molecular Hydrogen production. It is the first ever machine that can produce 3 types of water:

- 1) Neutral pH H₂ enriched water
- 2) Alkaline pH H₂ enriched water
- 3) Acid pH Hypochlorous (HOCl) Enriched Disinfecting water.

The key element of the Echo[®] 9 is the really high concentration of molecular Hydrogen dissolved in water. The patented anti-scale system completely stops scale or calcium build-up and lengthens the life of the electrodes. This machine is simple to operate with a user friendly intuitive color touch panel.

BENEFITS OF DRINKING WATER ENRICHED WITH MOLECULAR HYDROGEN

- Antioxidant, Bioavailable
- Anti-inflammatory, Anti-allergy
- Helps lower cholesterol levels
- Helps the body lower oxidative stress
- Protects against radiation damage
- Helps with reducing glucose intolerance
- Converts cell damaging free radicals into water
- Stimulates energy metabolism to prevent weight gain
- Prevents age related decline in cognitive capacity
- Decreases lactate (lactic acid) build up during exercise
- Supports cognitive function
- Neuroprotective
- Convenient and easy
- Water tastes smooth and light
- May help prevents erectile dysfunction
